

Reuben Firmin

Technology leader, startup CTO.
High productivity software engineer and architect.
US citizen, authorized to work in the US.

Experience

VPE

Mediafly

Apr 2022 - present

Mediafly acquired ExecVision in April 2022 for product capabilities.

- ★ Led engineering efforts to integrate rebranded ExecVision platform and technology into Mediafly products.
- ★ Ran technical diligence for successful strategic technology acquisition.
- ★ Managed three (remote) engineering teams from acquisitions.
 - Mentored new engineering managers
 - Led recruiting and onboarding for new developers
 - Merged and cross trained teams in different stacks
- ★ Served as de facto principal engineer, worked hands on in complex code as necessary.

CTO

ExecVision

Oct 2015 - Apr 2022

Joined ExecVision months after founding; led technology & product through successful exit.

- ★ Hired and managed fully remote team from 2015 onwards, nurtured strong culture, mentored and trained engineers & managers, designed and iterated on processes.
- ★ Designed and implemented compliance policies, obtained and maintained SOC2, managed client security reviews.
- ★ Participated in fundraising; regularly presented to the board and to VCs.
- ★ Managed product roadmap and specifications - hands on oversight of product design, built wireframes, ran iterative feedback cycles, worked directly with ui designers, and regularly sought customer feedback.
- ★ Coded significant parts of the codebase, performed profiling and performance optimization, led architecture, implemented distributed processing framework.
- ★ Performed code reviews, and set the tone and depth for peer review. Managed and trained QA team, and established quality/risk management process.
- ★ Selected and managed vendors. Managed and optimized budget.

CTO / Founder

4rc.io

Sep 2013 - Oct 2015

Virtual CTO consulting company, founded as CTO/CEO.

- ★ Designed and implemented business model whereby we'd engage with an early stage business client with an equity/cash contract, build product, technology and team to 1.0, and then backfill and move to the next client.
- ★ Three successful engagements, culminating in ExecVision in 2015, who I went full time with.
- ★ Handled all sales/marketing, and client support. Performed requirements analysis & iterative product development with clients.
- ★ Recruited and trained offshore technology/product teams. Owned product prototyping and architecture, and performed hands on coding.
- ★ Approaching \$2m revenue in 2015.

Chief Architect

Catalist

Oct 2010 - Sep 2013

Technology lead at a political big data analytics firm.

- ★ Inherited and improved big data architecture.
- ★ Managed multiple engineering teams.
- ★ Significant hands on coding work.

Education

BSc (Hons)

University of Aberdeen

Computer Science with AI & Psychology.

- ★ Summa cum laude.

Skills

Technology Leadership

- ★ Team management, recruiting, mentoring, team optimization
- ★ Agile project management, kanban + sprint
- ★ Architecture and strategy
- ★ High performance, high quality, hands on coder
- ★ Effective bridge between executive and engineering organizations

Programming Skills

- ★ Kotlin - 6 years for backend webapps, 2 years for web frontend
- ★ Java - 15+ years
- ★ SQL - 20+ years
- ★ Python - 4 years
- ★ Javascript/Typescript, HTML, CSS - 15+ years
- ★ C, C++, Perl - 1 year

Frameworks & Libraries

- ★ Dropwizard (Jersey, Jdbi) - 10 years
- ★ Spring - 10 years
- ★ Guice, Guava - 10 years
- ★ React - 1 year

Databases & Search

- ★ Postgresql - 15+ years
- ★ Sqlite, MySQL, Oracle, SQL Server - 2 years
- ★ Redshift - 5 years
- ★ Vertica - 3 years
- ★ Elasticsearch - 8 years

Devops

- ★ Linux - 20+ years
- ★ AWS (RDS, EC2, S3, ELB, ASG, IAM, Redshift) - 10+ years

Patents

Ergonomic Keyboard

- ★ US US20170185163A1 - Issued Jul 17, 2018
- ★ Hardware invention, sole designer and patent writer

Systems and methods for generating multi-segment longitudinal database queries

- ★ US WO2016154387A1 - Published Sept 29, 2016
- ★ Client sponsored patent, co-wrote with Cooley specialists

Endorsements

"He's a smart, thoughtful, level-headed tech leader with a rare combination of strong technical chops, solid project management skills, good instincts when sourcing talent and an ability to translate the most sophisticated technology to meet customer needs and business objectives." - Mitch Praver, CEO, Devexi, Client

"Detail oriented, with a positive attitude and an ability to productively work with a variety of team members, he makes any manager look great and any team a winner. He is effective, thorough and quick. He thinks issues through and brings you solutions not problems. I enthusiastically recommend his work." - Tom Des Jardins, Manager, StreamSage/Comcast

"[He] is a very mature and level-headed technical leader. He has great depth and breadth in software engineering and is good at communicating and mentoring. He is an incredibly fast study on the business requirements and issues." - Peter Connolly, Direct Report
